3. DESCRIPTION

(a) History, Present Business and Background of the Portfolio Manager

Magadh Capital was incorporated with an aim to provide a conventional style based, fundamental research driven platform to invest for large investors – high net worth individuals, family offices, corporates, financial institutions etc. - in India and abroad. The founder of Magadh Capital, the principal officer of the PMS, had earlier worked for twelve years as an institutional equity research analyst with large investments banks advising large institutional investors- largely foreign institutional investors but also some of the largest Indian mutual funds, regarding stock investments in Indian markets. During this long stint he felt that there were not enough equity investment vehicles that offered a fund based on a combination of fundamental research and behavioral finance for wealth creation and accordingly decided to start this venture. Magadh Capital received its license from SEBI for its AIF, category III in 2016 and for its PMS in 2021.

We are only in the business of fund management. We had run our Magadh Capital Long-Term Growth Scheme, AIF category III fund for about three years during 2018- 2020. Having run this fund we got enough confidence in our process, style and philosophy and accordingly enhanced our offering with a PMS in 2021. In our process a very important part is ensuring that investors' interests are aligned with the fund managers' interests. Accordingly, we remain selective in the investors that we take onboard.

Key Events:

1.	Date of Incorporation as a limited liability partnership firm incorporated under the Limited Liability Partnership Act, 2008	:	28 th May, 2016
2.	Received license to operate an AIF, Category III	:	24 th November, 2016
3.	Received license to operate Portfolio Manager Activities	:	15 th February, 2021

(b) Partners and their background:

(1) **Mr. Vipul Prasad:**

Mr. Vipul Prasad is the Principal Officer / Portfolio Manager of Magadh Capital PMS and CEO/Founder and a designated partner of Magadh Capital Advisors LLP.

Vipul Prasad has handled senior roles in investment management, equity research, planning, marketing and maintenance in fields of investment banking and manufacturing in his career spanning over 28 years. He has more than 21 years of experience in equity markets. Since August, 2021 Vipul has been managing Magadh Capital PMS. Prior to that, between January 2018 and November 2020, he had managed Magadh Capital Long-Term Growth Scheme as an AIF, category III fund that was a fundamental investment based multi-cap, sector agnostic fund with a long-term investment horizon.

Prior to setting up Magadh Capital he had worked for more than twelve years as lead equity research analyst with some large and reputed investment banks (ten years with Morgan Stanley, and before that, one year each with ABN AMRO Asia Equities and Motilal Oswal Securities) advising institutional investors like mutual funds, sovereign wealth funds, pension funds, hedge funds and PE funds from across the world on stock investments, based on fundamental research, in Indian metals and mining, cement and media sectors. As an equity research analyst Vipul enjoyed good reputation for fundamental research, industry understanding, valuation skills and integrity. He also played important role as research analyst in many large IPO/FPO like Coal India (in 2010, the largest IPO in India till 2021 at US\$ 3.3b), National Mineral Development Corporation (in 2010), Entertainment Networks India Ltd (in 2006), Hathway Cable (in 2010) etc. Vipul was also instrumental in rights issues of companies like Tata Steel, Hindalco, Sterlite, Vedanta etc.

As leader of sector equity research teams his job involved predicting movement in stock prices based on analysis of macroeconomic and industry trends, company and competitor strategy, key success parameters, identification of main business drivers, forecast of income statements / balance sheets / cash flows, and valuations.

In his role as lead equity research analyst for metals and mining sector research, apart from tracking the global commodity sector Vipul has also keenly followed trends in Indian infrastructure, capital goods, power and utilities, oil and gas and automobile sectors over twelve years. He was consistently ranked amongst top equity analysts in client ratings – both internally as well as externally (Institutional Investor (2012, 2014, 2015), Asiamoney (2008)), and in other rankings like India Today (2008) and Bloomberg (2007).

He was Executive Director, Equity Research with Morgan Stanley (based in Mumbai) before founding Magadh Capital Advisors. Earlier in his career he had worked with BASF India for a year in marketing, and with SAIL (Steel Authority of India Ltd) for six years in planning, maintenance and operations.

Having worked in equity markets for more than 21 years Vipul has experienced two bull and bear cycles in Indian equity market as an investment industry professional. He is a voracious reader with keen interest in history (including equity markets'), behavioral finance, economics and global geopolitics.

He is a regular contributor to business newspaper columns on macroeconomics and equity markets. He has presented on metals industry trends in industry forums and seminars- both in India as well as abroad, and has been regularly quoted in print and electronic media on equity markets, stocks and sector prospects. He also served on Indian government's working group on steel industry in 2013.

Vipul holds a Master's in Business Administration from Indian Institute of Management, Kolkata (PGDM in Finance and Strategy, in 2002) and a Bachelor's degree (B. Tech in Mechanical Engineering, in 1994) from Indian Institute of Technology, BHU, Varanasi.

(2) Mr. Vivek Prasad

Mr. Vivek Prasad is a designated partner of Magadh Capital Advisors LLP.

Vivek Prasad has been an entrepreneur for more than 17 years and has nurtured businesses in sectors as diverse as petrochemicals, healthcare and food.

Before starting his journey as an entrepreneur, he had worked with reputed companies at senior levels. In his last stint before turning into an entrepreneur Vivek had held national level position at Bausch and Lomb India for marketing and channel management in a retail environment. Prior to that he had worked with Marubeni Corp of Japan for six years in equipment finance and business development especially for machinery for automobile, petrochemical and construction industry. He had also worked at Tata International earlier in the field of international trade

He is an avid trekker and a nature enthusiast. He has been to several high-altitude expeditions in the Himalayas. Vivek is an MBA from Narsee Monjee Institute of Management Studies, Mumbai (Marketing with International Business, in 1996) and a BE (Mechanical Engineering, in 1992) from MSRIT, Bangalore.

(3) Mr. Vikram Sinha

5. SERVICES OFFERED

I. Discretionary PMS:

The Portfolio Manager manages the Assets of the Client using the following strategies:

Investments are done in Indian listed equity space, based on a mix of fundamental research and behavioral finance. Our stock selection is driven by our bottom-up fundamental research-based methodology. Here we are also mindful of the top-down market and sector trends. The portfolio construction is based on our proprietary FACTS box process.

The Portfolio Manager may design and develop various products keeping in mind market conditions and sector/stock opportunities. The Portfolio in all cases will be guided strictly by the relevant guidelines, Acts, rules, Regulations, and notifications. The instrument may be principal protected or non- protected, which may have fixed or variable pay-offs. The investment objective of the Portfolio Manager shall be to generate attractive growth of capital with optimal risks, and at the same time to reduce the risk of permanent capital erosion. However, while the aforesaid is the objective, it needs to be reiterated that there can be no assurance and / or guarantee of such growth or even as regards preservation of capital or of there being no capital loss. The amount invested by the Client may be subject to some exit load as detailed in the relevant schedule to the Client Agreement.

The main features under Magadh Capital's Discretionary Portfolio Management Services are:

i) Application of rigorous fundamental equity research and behavioral finance, ii) Intense focus on risk mitigation, and iii) Continuous assessment of gap between stocks' fair value and market price.

NOTE:

- Investments shall be made in accordance with the Regulations.
- The uninvested amounts forming part of the Client's Assets may, at the discretion of the Portfolio Manager, be held in cash or deployed in liquid fund schemes, exchange traded index funds, debt-oriented schemes of mutual funds, gilt schemes, bank deposits and other short-term avenues for investment.
- The Portfolio Manager may, with the consent of the Client, lend the securities through an approved intermediary.
- The Portfolio Manager shall, prior to investing in the securities of associate / group companies, evaluate such investments, the criteria for the evaluation being the same as is applied to other similar investments to be made. Investments under the Portfolio in securities of the group companies will be subject to the limits (if any) prescribed in the Client Agreement subject to the applicable laws / regulations / guidelines.

Currently the Portfolio Manager offers following Investment Approaches under Discretionary Management Services:

1. Value For Growth
2. Future Stars

II. Investment Approaches of the Portfolio Manager:

The investment objective and investment approach of the existing portfolios offered are as follows:

1. VALUE FOR GROWTH: SECTOR AGNOSTIC, MULTI-CAP INVESTMENT APPROACH

Investment Objective: To help investors create wealth over 2-4 years without taking undue risks. Towards this objective, we aim to i) Protect the capital- from – a) deep and prolonged bear markets, b) concentration risk, and c) extreme volatility, and ii) Provide capital appreciation over long term by – a) spotting mispricing in equities, and b) constructing a stock portfolio consisting of a mix of good stocks with high growth potential, or with above market growth and high predictability.

Product Strategy and Basic Details: Value for Growth: A multi-cap, sector agnostic investment approach with BSE 500 TRI (Total Return Index) as the benchmark. The portfolio will always have at least 35% exposure to large-cap stocks.

To buy good companies with sustainable competitive advantages, or sustainably improving businesses, at fair price. The key markers for competitive advantages that we focus on are earnings growth and return ratios.

A combination of fundamental equity analysis, active monitoring, patience, and long-term horizon – that we intend to follow has been a proven way to wealth creation. There can be some volatility risk but the idea here is to deliver healthy long term returns by real diversification and risk-reward optimization.

Description of Securities: Investors' funds are primarily invested in equity shares and equity linked instruments issued by companies which are listed in India. Some part of funds may be invested in money market funds, liquid funds, debt funds or/and kept as cash in bank.

Basis of Selection of type of security:

- Sizeable gap between fair value and stock price
- Focus should be on fast growing and/or mispriced companies led by good management
- Leadership – existing or potential- in a sector or sub-sector, backed by sustainable competitive advantages are some key indicators for good companies
- Corporate governance is an important filter to use

Allocation of portfolio across types of securities:

Type of security	Allocation in portfolio
Equity and equity linked instruments - Large Cap	At least 35%
Equity and equity linked instruments- Mid Cap & Small Cap	Up to a maximum of 65%
Debt / Money market funds / Liquid funds / Mutual Funds / Bank Deposits	Will depend on fund manager's market call but generally should not exceed 10-15%

Note: There will be no prior intimation or prior indication given to the investor/client whenever there is a change in the composition / asset allocation pattern. The change will be at the Fund Manager's discretion subject to market risks, various micro and macro factors and forces affecting the capital markets and include price fluctuation risks.

We apply our process of FACTS box or portfolio construction.

Apart from fundamental analysis we also apply behavioral finance quite actively in decision making.

Benchmark: BSE 500 TRI (Total Return Index) is the index that we use for benchmarking our performance. The portfolio consists of a diversified mix of companies across sectors and market capitalization curve. BSE 500 TRI index is a fair mix of large cap, mid cap and small caps stocks from across sectors. It is a well-diversified index and represents the same segment of Indian equity markets that our Value for Growth investment approach is focused on. Hence, BSE 500 TRI has been selected as the benchmark for comparing performance of this investment approach.

Recommended Investment Horizon, Exit Loads: The Investment Approach shall not be subject to any lock-in period, although the investment horizon should be 2-4 years, ideally. Redemption during first 12 months, 24 months, and 36 months will attract exit load of up to 3.0%, up to 2.0%, and up to 1.0% respectively.

Direct Option: Investor may invest with us directly as well. To invest in any of our PMS strategies directly, kindly write to us at mail to: investor.info@magadhcapital.com

Risks associated with the investment approach: Risk factors associated with the investment approach are Equity risk, Systematic risk, Concentration risk, Model portfolio risk, Mismatch risk and Execution risk. For detailed risk factors, please refer the Clause on Risk Factors of this disclosure document.

2. FUTURE STARS: SECTOR AGNOSTIC, SMALL AND MID-CAP FOCUSED INVESTMENT APPROACH

Investment Objective: To help investors create wealth over 3-5 years by delivering superior risk adjusted returns. Towards this objective, we aim to i) Protect the capital - from – a) deep and prolonged bear markets, b) concentration risk, c) extreme volatility, and d) corporate mis-governance, and ii) Provide capital appreciation over long term by – a) spotting mispricing in equities, b) constructing a stock portfolio with some well calibrated volatility risk but with low portfolio correlation, and c) investing in high growth companies.

Product Strategy and Basic Details: Future Stars: A small-cap and mid-cap, sector agnostic investment approach with BSE 500 TRI (Total Return Index) as the benchmark. At least 75% of the Future Stars portfolio is allocated to mid-cap and small cap space.

To identify and buy companies that can deliver multifold gains in free cash flows, can get into sector leadership and/or are positioned to gain disproportionately from industry tailwinds - over next 3-5 years.

A combination of proper equity analysis, active monitoring, patience, and long-term horizon – that we intend to follow has been a proven way to wealth creation. Volatility risk in this journey can be sizeable but the idea here is to catch some potential multi baggers early in their life cycles even with relatively modest hit ratios.

Description of Securities: Investors' funds are primarily invested in equity shares and equity linked instruments issued by companies which are listed in India. Some part of funds may be invested in units of money market funds, liquid funds, debt funds and/or some part may be kept as cash in bank.

Basis of Selection of type of security:

- Sizeable gap between fair value and stock price
- Focus should be on fast growing and/or mispriced companies led by good management
- Leadership – existing or potential- in a sector or sub-sector, backed by sustainable competitive advantages are some key indicators for good companies
- Corporate governance is an important filter to use

Allocation of portfolio across types of securities:

Type of security	Allocation in portfolio
Equity and equity linked instruments (small-cap and mid-cap)	At least 75%
Equity and equity linked instruments (Large Cap)	up to 25%
Debt / Money market funds / Liquid funds / Mutual Funds / Bank Deposits	Will depend on fund manager's market call but generally should not exceed 10-15%

Note: There will be no prior intimation or prior indication given to the investor/client whenever there is a change in the composition / asset allocation pattern. The change will be at the Fund Manager's discretion subject to market risks, various micro and macro factors and forces affecting the capital markets and include price fluctuation risks.

We apply our process of FACTS box or portfolio construction.

Apart from fundamental analysis we also apply behavioral finance quite actively in decision making.

Benchmark: BSE 500 TRI (Total Return Index) is the index that we use for benchmarking our performance. The portfolio's strategy is to invest largely in Companies with mid-and- small market capitalization diversified across sectors. At the same time, in order to balance the risks, up to 25% of the portfolio will be invested in large cap stocks. Thus, on a portfolio basis we expect the risk profile to be close to that of BSE 500 TRI index.

Recommended Investment Horizon, Lock-in period, Exit Loads: The Investment Approach shall not be subject to any lock-in period, although the investment horizon should be 3-5 years, ideally. Redemption during first 12 months, 24 months, and 36 months will attract exit load of up to 3.0%, up to 2.0%, and up to 1.0% respectively.

Direct Option: Investor may invest with us directly as well. To invest in any of our PMS strategies directly, kindly write to us at: investor.info@magadhcapital.com

Risks associated with the investment approach: Risk factors associated with the investment approach are Equity risk, Systematic risk, Concentration risk, Model portfolio risk, Mismatch risk and Execution risk. *This investment approach focuses more towards mid- cap and small cap sector stocks and hence its NAV may be more volatile. For the same reason, corporate mis-governance risk are also there.* For detailed risk factors, please refer the Clause on Risk Factors of this disclosure document.

III. The policies for investments in associates / group companies of the portfolio manager and the maximum percentage of such investments therein subject to the applicable laws / regulations / guidelines

The Portfolio Manager does not have an associate company / group company.

6. RISK FACTORS

(a) General risk factors applicable to investments:

- i. Investments in Securities are subject to market risks and there is no assurance or guarantee that the objective of investments will be achieved.
- ii. Past performance of the Portfolio Manager does not indicate its future performance.
- iii. Investors are not being offered any guaranteed or assured return(s) i.e. either of principal or of appreciation of the Portfolio.
- iv. Investors may note that Portfolio Manager's investment decisions may not be always profitable, as actual market movements may be at variance with anticipated trends.
- v. Investors may not be able to voluntarily withdraw from the Portfolio. In addition, they may not be able to transfer any of the interests, rights, or obligations with regard to the Portfolio except as may be provided in the relevant Client Agreement and the Regulations.
- vi. The Portfolio may be affected by settlement periods and transfer procedures.
- vii. The Portfolio Management Service is subject to risk arising from the investment objective, investment strategy and asset allocation.
- viii. The Portfolio Manager carries out risk profiling of the Clients at the time of initial investment. In case the Client does not inform the changes in the profile, there may be a risk of investment advice on the basis of incorrect risk profiling of the Client due to insufficient information provided by such Client.
- ix. The Client should read the Document and terms and conditions of the product properly before making any investment decision. The Portfolio Manager would be acting on the advice of experts in the relative fields but would not be responsible for any loss occasioned by any act or omission on the part of such persons.
- x. A Portfolio which tends to concentrate on a specific asset class or a specific sector could carry the risk with regard to non-diversification of the Portfolio and hence, the scope for diversification could be limited at times. There could be instances when the Portfolio might have an unusually high exposure to a few stocks.
- xi. There are inherent risks arising out of investment objectives, investment approach, investment strategy, asset allocation and non-diversification of portfolio.
- xii. All transactions of purchase and sale of securities by portfolio manager and its employees who are directly involved in investment operations shall be disclosed if found having conflict of interest with the transactions in any of the client's portfolio.
- xiii. The investments are vulnerable to movements in the prices of Securities in the Portfolio as managed by the Portfolio Manager, which could have a material bearing on the overall returns from the Portfolio. The value of the Portfolio, may be affected generally by factors affecting securities markets, such as price and volume, volatility in the capital markets, interest rates, currency exchange rates, changes in policies of the government, taxation laws or any other appropriate authority policies and other political and economic developments which may have an adverse bearing on individual securities, a specific sector or all sectors including equity and debt markets.
- xiv. The Portfolio Manager commenced portfolio management services operations in August, 2021 and had no track record, with regard to activities of a portfolio manager prior to it.

(b) Risks related to equity and equity linked investments:

- i. The liquidity of the Portfolio is inherently restricted by trading volumes in the Securities in which it invests.
- ii. The valuation of the Portfolio, may be affected generally by factors affecting securities

markets, such as price and volume volatility in the capital markets, interest rates, currency exchange rates, changes in policies of the government, geopolitical developments, taxation laws or any other appropriate authority policies and other political and economic developments which may have an adverse bearing on individual securities, a specific sector or all sectors including equity and debt markets. There will be no prior intimation or prior indication given to the Clients when there is a change in the composition / asset allocation pattern.

- iii. Trading volumes, settlement periods and transfer procedures may restrict the liquidity of the Securities in the Portfolio. Different segments of the Indian financial markets have different settlement periods and such periods may be extended significantly by unforeseen circumstances. The inability of the Portfolio Manager to make intended securities purchases due to settlement problems could cause the Portfolio Manager to miss certain investment opportunities. By the same rationale, the inability to sell Securities held in the Portfolio due to the absence of a well-developed and liquid secondary market for debt securities would result, at times, in potential losses to the Portfolio, in case of a subsequent decline in the value of Securities held in the Portfolio.
- iv. In case of dividend yield portfolios, returns from the Portfolio could depend on the dividend earnings and capital appreciation, if any, from the underlying investments in various dividend yield companies. The dividend earnings from the Portfolio may, vary from year to year based on the philosophy and other consideration of each of the high- dividend yield companies. Further, it should be noted that the actual distribution of dividends and frequency thereof by the high-dividend yield companies in future would depend on the quantum of profits available for distribution by each of such companies. Dividend declaration by such companies will be entirely at the discretion of the shareholders of such companies, based on the recommendations of its board of directors. Past track record of dividend distribution may not be treated as indicative of future dividend declarations. Further the dividend yield stocks may be relatively less liquid as compared to growth stocks.
- v. Securities, which are not quoted on the stock exchanges, are inherently illiquid in nature and carry a larger amount of liquidity risk, in comparison to securities that are listed on the exchanges or offer other exit options to the investor, including a put option. The Portfolio Manager may choose to invest in unlisted securities that offer attractive yields. This may however increase the risk of the portfolio. Such investments shall be subject to the scope of investments as laid down in the Agreement.
- vi. While securities that are listed on the stock exchange carry relatively lower liquidity risk, the ability to sell these investments is limited by the overall trading volume on the stock exchanges, money market securities, while fairly liquid, lack a well- developed secondary market, which may restrict the selling ability of the Portfolio(s) and may lead to the investment(s) incurring losses till the security is finally sold.

- vii. The Portfolio Manager may, subject to authorization by the Client in writing, participate in securities lending. The Portfolio Manager may not be able to sell / lend out securities, which can lead to temporary illiquidity. There are risks inherent in Securities lending, including the risk of failure of the other party, in this case the approved intermediary to comply with the terms of the agreement. Such failure can result in a possible loss of rights to the collateral, the inability of the approved intermediary to return the securities deposited by the lender and the possible loss of corporate benefits accruing thereon.
- viii. To the extent of investments made in Securities denominated in foreign currencies, the Indian Rupee equivalent of the net assets, distributions and income may be adversely affected by changes in regulations concerning exchange controls or political circumstances as well as the Application to it of other restrictions on investment.

(c) Risks related to investments in debt and debt related instruments:

- i. Interest Rate Risk: As with all debt securities, changes in interest rates may affect valuation of the Portfolios, as the prices of Securities generally increase as interest rates decline and generally decrease as interest rates rise. Prices of long-term Securities generally fluctuate more in response to interest rate changes than prices of short-term Securities. Indian debt markets can be volatile leading to the possibility of price movements up or down in fixed income securities and thereby to possible movements in the valuations of Portfolios.
- ii. Liquidity or Marketability Risk: This refers to the ease with which a Security can be sold at or near to its valuation yield-to-maturity. The primary measure of liquidity risk is the spread between the bid price and the offer price quoted by a dealer. Liquidity risk is today characteristic of the Indian fixed income market.
- iii. Credit Risk: Credit risk or default risk refers to the risk that an issuer of a fixed income Security may default (i.e., will be unable to make timely principal and interest payments on the Security). Due to this risk, corporate debentures are sold at a higher yield above those offered on government securities which are sovereign obligations and free of credit risk. Normally, the value of a fixed income Security will fluctuate depending upon the changes in the perceived level of credit risk as well as any actual event of default. The greater the credit risk, the greater the yield required for someone to be compensated for the increased risk.
- iv. Reinvestment Risk: This risk refers to the interest rate levels at which cash flows received from the Securities under a particular Portfolio are reinvested. The additional income from reinvestment is the 'interest on interest' component. The risk is that the rate at which interim cash flows can be reinvested may be lower than that originally assumed.
- v. The Portfolio Manager may, considering the overall level of risk of the Portfolio, invest in lower rated / unrated Securities offering higher yields. This may increase the risk of the portfolio. Such investments shall be subject to the scope of investments as laid down in the relevant Client Agreement.

(d) Risks related to investments in derivatives instruments:

- i. The Portfolio Manager may use derivatives instruments like index futures, stock futures and options contracts, warrants, convertible securities, swap agreements or any other derivative instruments for the purpose of hedging and portfolio balancing, as permitted under the Regulations. Usage of derivatives will expose the Portfolio to certain risks inherent to such derivatives. As and when the Portfolio Manager deals in the derivatives market on behalf of the Client, there are risk factors and issues concerning the use of derivatives that the Client should understand.

- ii. Derivative products are specialized instruments that require investment techniques and risk analyses different from those associated with stocks and bonds. The use of a derivative requires an understanding not only of the underlying instrument but of the derivative itself. Derivatives require the maintenance of adequate controls to monitor the transactions entered into, the ability to assess the risk that a derivative adds to the portfolio and the ability to forecast price or interest rate movements correctly. There is the possibility that a loss may be sustained by the portfolio as a result of the failure of another party (usually referred to as the "counter party") to comply with the terms of the derivatives contract. Other risks in using derivatives include the risk of mispricing or improper valuation of derivatives and the inability of derivatives to correlate perfectly with underlying assets, rates and indices. Thus, derivatives are highly leveraged instruments. Even a small price movement in the underlying security could have a large impact on their value.

(e) Risks specific to investments in mutual fund schemes:

- i. Mutual Funds and securities investments are subject to market risks and there is no assurance or guarantee that the objectives of the schemes will be achieved. The various factors which impact the value of the scheme's investments include, but are not limited to, fluctuations in markets, interest rates, prevailing political and economic environment, changes in government policy, tax laws in various countries, liquidity of the underlying instruments, settlement periods, trading volumes, etc.
- ii. As with any securities investment, the Net Asset Value (NAV) of the units issued under the schemes can go up or down, depending on the factors and forces affecting the capital markets.
- iii. Past performance of the sponsors, asset management company (AMC) / fund does not indicate the future performance of the schemes of the fund.
- iv. The Portfolio Manager shall not be responsible for liquidity of the scheme's investments which at times, be restricted by trading volumes and settlement periods. The time taken by the scheme for redemption of units may be significant in the event of an inordinately large number of redemption requests or of a restructuring of the scheme's portfolio.
- v. The Portfolio Manager shall not be responsible, if the AMC / fund does not comply with the provisions of SEBI (Mutual Funds) Regulations, 1996 or any other circular or acts as amended from time to time.
- vi. The Portfolio Manager shall not be liable for any default, negligence, lapse error or fraud on the part of the AMC / the fund.
- vii. While it would be the endeavor of the Portfolio Manager to invest in the schemes in a manner, which will seek to maximize returns, the performance of the underlying schemes may vary which may lead to the returns of this portfolio being adversely impacted.
- viii. The scheme specific risk factors of each of the underlying schemes become applicable where the Portfolio Manager invests in any underlying scheme. Investors who intend to invest in this Portfolio are required to and are deemed to have read and understood the risk factors of the underlying schemes.
- ix. The Portfolio Manager does not offer any guaranteed or assured returns to the investors.

For Resident Individuals, HUF, Partnerships Firm and Indian Companies Short-term Capital Gains (other than shares or units of equity oriented funds on a recognized stock exchange, which are subject to Securities Transaction Tax) is added to the total income. Total income including short-term capital gain is chargeable to tax as per the relevant slab rates. However, tax on short term capital gains on sale of shares and units of equity-oriented funds on a recognized stock exchange, which are subject to Securities Transaction Tax, would be @ 15% till 23rd July'2024, after 23rd July Tax will be 20%(plus applicable surcharge and an education cess).

As per Finance Act 2023, new section 50AA for taxation of market linked debentures or units of a Specified Mutual Fund has been introduced. As per Section 50AA, the full value of the consideration received or accruing as a result of transfer or redemption or maturity of such debenture or unit shall deem to be short term capital gains and taxable at applicable slab rates.

Provisions regarding Dividend income and Bonus

According to the provisions of Section 94(7) of the Act, losses arising from the sale/redemption of securities or units purchased within 3 months prior to the record date (for entitlement of dividend or income) and sold within 9 months (3 months in case of securities) after such date, is disallowed to the extent of income on such units (claimed as tax exempt).

According to the provisions of Section 94(8) of the Act, if an investor purchases units within 3 months before the record date (for entitlement of bonus) and sells/redeems the units within 9 months after that date, and by virtue of holding the original units, he becomes entitled to bonus units, then the loss arising on transfer of original units shall be ignored for the purpose of computing his income chargeable to tax. In fact, the loss so ignored will be treated as cost of acquisition of such bonus units.

Switching from one scheme to another

As stated in the respective Scheme Information Documents, switching from one Scheme / option to another Scheme / option will be effected by way of redemption of units of the relevant Scheme / option and reinvestment of the redemption proceeds in the other Scheme / option selected by the unit holder. Hence, switching will attract the same implications as applicable on transfer of such units.

Consolidation of Schemes

Transfer of units upon consolidation of mutual fund schemes of two or more schemes of mutual fund in accordance with SEBI (Mutual Funds) Regulations, 1996 is exempt from capital gains. Further, transfer of units upon consolidation of plans within mutual fund schemes in accordance with SEBI (Mutual Funds) Regulations, 1996 is exempt from capital gains. Provided that consolidation is of two or more schemes of equity oriented fund or of two or more schemes of funds other than equity oriented fund.

Segregation of Portfolio

No Capital gain shall arise on transfer of units from total portfolio to segregated portfolio as there is no sale of units from the total portfolio. However, if there is sale of units of segregated portfolio then the resultant gain or loss will be considered as short term or long term capital gain depending on the holding period. Holding period of less than 36 months is treated as short term capital gain and the gains will be taxed as per slab rate whereas any holding for more than 36 months will be considered as long term capital gain and the gain will be taxed at the rate of 20% with indexation benefit. Period of holding in the segregated portfolio shall be reckoned from the date when the units were originally allotted to the assessee in the main portfolio and not from the date when such segregated portfolio was created.

Tax withholding:

Resident Investors

As per Circular no. 715 dated August 8, 1995 issued by the CBDT in case of resident Unit holders, no tax is required to be deducted at source from capital gains arising at the time of repurchase or redemption of the units. However, income (other than above) received from Mutual fund specified under section 10(23), units from the

administrator of the specified undertaking or units from the specified company will be liable for tax deduction at the rate of 10% if the said amount payable to a person exceeds rupees five thousand during a financial year.

Finance Act 2023 has removed the exemption provided to deduct tax on the interest payable on listed securities in dematerialized form from the ambit of section 193. So, the interest on such securities will be liable to tax deduction at the rate of 10%

Foreign Portfolio Investors

Under section 196D of the Act, tax is required to be deducted at source at the rate of 20% on dividend income earned by a FPI. No Tax is required to be deducted on capital gain earned by FPI. The remittance to a country with which a Double Tax Avoidance Agreement ('DTAA') is in force, the tax should be deducted at the rate provided in the Finance Act of the relevant year or at the rate provided in the DTAA, whichever is more beneficial to the assessee.

Non-resident Investors other than FPI's

Under Section 195 of the Act, tax is required to be deducted at source at the rate of 20% /10% (without indexation) on any long-term capital gains arising to non-resident investors from units other than units of an equity oriented scheme. Long term capital gains from equity oriented schemes & listed equity shares are liable to be withhold @10% if the capital gain exceed Rs.1 Lakh during the financial year starting from April 1, 2018.

In respect to short-term capital gains from units other than units of an equity oriented scheme, tax is required to be deducted at source at the rate of 30% (Assuming Highest tax bracket for investor) if the payee unit holder is a non-resident non-corporate and at the rate of 40% if the payee unit holder is a foreign company. In case of equity oriented schemes, tax is required to be deducted at the rate of 15% for both corporate and non-corporate non-resident unit holders.

Further, the aforesaid tax to be deducted is required to be increased by surcharge and Health & Education Cess, as applicable.

As per circular no. 728 dated October 30, 1995 issued by the CBDT, in the case of a remittance to a country with which a Double Tax Avoidance Agreement ('DTAA') is in force, the tax should be deducted at the rate provided in the Finance Act of the relevant year or at the rate provided in the DTAA, whichever is more beneficial to the assessee.

14. ACCOUNTING POLICIES FOLLOWED BY THE PORTFOLIO MANAGER WHILE ACCOUNTING FOR THE PORTFOLIO INVESTMENTS OF THE CLIENTS

Accounting under the respective Portfolios is being done in accordance with general accepted accounting principles. The following accounting policy will be applied for the portfolio investments of the clients:

- a. Trades will be accounted on trade date (T) accounting basis. Sale of security can be from only settled stock.
- b. The cost of acquisition in case of listed securities which are introduced as part of the corpus would be accounted at the previous day's closing price on NSE/BSE.
- c. Investments acquired or sold by the Portfolio Manager shall include brokerage, Stamp duty, Securities Transaction Tax ('STT') and any other charge customarily shall not be included in the cost of investments and shall be debited to the client's Income & Expenditure Account
- d. Bonus shares/units to which the Client becomes entitled shall be recognized only when the original shares/units on which the bonus entitlement accrues are traded on the stock exchange on an ex-bonus basis.
- e. Rights entitlement shall be recognized only when the original shares on which the rights entitlement accrues are traded on the stock exchange on an ex-rights basis.
- f. Other Corporate Action entitlement shall be calculated and accounted based on the end of the day ('EOD') position prevailing before the ex-date. For other investments, which are not quoted on NSE or BSE, dividend income shall be recognized on the date of receipt

In respect of all interest-bearing investments, income shall be accrued on a day-to-day basis as it is earned. Therefore, when such investments are purchased, interest earned for the period from the last interest due date upto the date of purchase shall not be treated as a cost of purchase but shall be debited to Interest Recoverable Account. Similarly, interest received at the time of sale for the period from the last interest due date up to the date of sale shall not be treated as an addition to sale value but shall be credited to Interest Recoverable Account.

- g. In determining the holding cost of investments and the gains or loss on sale of investments, the First-in-First-out ('FIFO') method shall be followed.
- h. Whenever Client specific unit allocation will be provided by the fund Manager (PMS), same will be used on that day for deal allocation.
- i. Transactions for purchase or sale of investments shall be recognized as of the trade date and not as of the settlement date, so that the effect of all investments traded during a financial year is recorded and reflected in the financial statements for that year.
- j. Where investment transactions take place outside the stock market, for example, acquisitions through private placement or purchases or sales through private treaty, the transaction would be recorded, in the event of a purchase, as of the date on which the portfolio obtains its enforceable obligation to pay the price or, in the event of a sale, when the portfolio obtains an enforceable right to collect the proceeds of sale or an enforceable obligation to deliver the securities sold.
- k. Management fees if applicable would be booked as per the frequency and data provided by client/Investment manager.
- l. Performance fees if applicable would be booked as per the frequency and data provided by client/Investment manager.
- m. All other expenses payable by the client shall be accrued as per the frequency and data provided by client/Investment manager.
- n. Financial year end will be followed as 31st March.
- o. The Portfolio Manager can adopt any specific norms or methodology for valuation of

investments or accounting the same on a case specific basis. Some of them are as follows:

- Transactions for purchase or redemption of investments in case of units of mutual fund schemes, shall be recognized as of the trade date (applicable NAV based on applicable cut off time) and not as of the settlement date.
- In respect of privately placed debt instruments any front-end discount offered may be reduced from the cost of the investment.
- Underwriting commission, if any, shall be recognized as revenue only when there is no devolvement on the Portfolio. Where there is devolvement on the Portfolio, the full underwriting commission received and not merely the portion applicable to the devolvement shall be reduced from the cost of the investment.

The Accounting Policies and Standards as outlined above are subject to changes made from time to time by Portfolio Manager. However, such changes would be in conformity with the Regulations.

15. IMPORTANT NOTE ON PREVENTION OF MONEY LAUNDERING & KNOW YOUR CUSTOMER (KYC) REQUIREMENTS

The Government of India has put a policy framework to combat money laundering through the Prevention of Money Laundering Act, 2002 (“**PMLA 2002**”). PMLA 2002 and Prevention of Money-laundering (Maintenance of Records) Amendment Rules, 2015 notified thereunder (“**PMLA Rules**”) came into effect from July 1, 2005. Director, FIU-IND and Director (Enforcement) have been conferred with exclusive and concurrent powers under relevant sections of the Act to implement the provisions of the Act. Consequently, SEBI has mandated that all registered intermediaries to formulate and implement a comprehensive policy framework on anti-money laundering and adopt ‘Know Your Customer’ (KYC) norms.

Further, SEBI vide Circular No. CIR/ISD/AML/3/2010 dated December 31, 2010 (which supersedes all the earlier circular) issued a ‘Master Circular for Anti Money Laundering (AML) Standards/ Combating the Financing of Terrorism (CFT) /Obligations of Securities Market Intermediaries under the Prevention of Money Laundering Act, 2002’ consolidating all the requirements/instructions/obligations of Securities Market Intermediaries.

Accordingly, the investors should ensure that the amount invested by them is through legitimate sources only and does not involve and are not designed for the purpose of any contravention or evasion of any act, rules, regulations, Notifications or directions of the provisions of Income-tax Act, 1961, PMLA 2002, the Prevention of Corruption Act, 1988 and or any other applicable laws enacted by the Government of India from time to time. The Portfolio Manager is committed to complying with all applicable anti-money laundering laws and regulations in all of its operations. The Portfolio Manager recognizes the value and importance of creating a business environment that strongly discourages money launderers from using the portfolio management route. To that end, the Portfolio Manager and its group companies, if any, are required to and may take any action to meet their obligations pertaining to (i) laws or international guidance and internal policies or procedures, (ii) any demand or request from authorities or reporting, disclosure or other obligations under laws, and (iii) laws requiring the verification of the identity of customers relating to or in connection with the detection, investigation and prevention of money laundering and other financial crimes in accordance with the laws, regulations and requests of public and regulatory authorities operating in various jurisdictions which relate to money laundering and other financial crimes. Accordingly, the Portfolio Manager may take, and may instruct (or be instructed by) any of its group companies to take, any action which it or such other member, in its sole and absolute discretion, considers appropriate to take in accordance

with all such laws, regulations and requests. Such action may include but is not limited to (a) making further enquiries as to the status of a person or entity, whether they are subject to a sanctions regime, or confirming investor's identity and status (b) share information on a confidential basis with group offices, as applicable, in relation to prevention of money laundering and other financial crimes.

Further, the Portfolio Manager shall restrict investments from Clients, in case such Client and / or its / their related parties who are subject to sanctions or have any of their addresses or are citizens of or residing in major sanctioned countries and such other sensitive countries. The Portfolio Manager may also seek additional information / perform additional due diligence for such clients (and / or its / their related parties) having any of their addresses or are citizens of or residing in any of the sensitive countries.

Considering the above obligations, the Portfolio Manager reserves the right to reject or refund or freeze the account of the Client or terminate the Client Agreement if the Client doesn't comply with the internal policies of the Portfolio Manager or any of the applicable laws including the KYC requirements. Further, the Portfolio Manager has put in place client due diligence measures including screening procedures, which shall be conducted during on-boarding of Client and during periodic review of such Clients, whereby names of the Clients (including, but not limited to, related parties such as directors, trustees, partners, authorised signatories, power of attorney holders, beneficial owners etc.) will be screened against such database considered appropriate by the Portfolio Manager. Further, the Portfolio Manager shall take necessary action including rejection of Application / refund of Application money / freezing of client account for future transactions / termination of the Client Agreement / submitting suspicious transactions report (STR) to law enforcement authorities if the Portfolio Manager has reasonable grounds to believe / suspect that the transactions involve money laundering or terrorist financing or proceeds of crime.

The Portfolio Manager shall not be held liable in any manner for any claims arising whatsoever on account of freezing the account / rejection or refund of the Application / termination of the Client Agreement etc. due to non-compliance with the provisions of any of the aforesaid Regulations or applicable laws or the internal anti-money laundering policy followed by the Portfolio Manager.

To ensure appropriate identification of the Client during on-boarding or periodic review and with a view to monitor transactions for the prevention of money laundering, the Portfolio Manager reserves the right to: (a) scrutinize and verify the identity of the Client and the source of the Funds invested, to be invested by Client; (b) ask for the required additional information to substantiate the source of investments is genuine (c) reject any Application, prevent further transactions by the Client; (d) to mandatorily redeem the investments held by the Client either upon or prior to termination of the Client Agreement and (e) reject the transaction / redemption / freeze or seize Client's account if the Portfolio has a reasonable ground to do so; and (f) report the relevant details to the competent authority and take such other actions as may be required to comply with the applicable law as the Portfolio Manager may deem proper at their sole option.

The Portfolio Manager shall also identify and verify the identity of persons, during on- boarding of Client and during periodic review of Client, who beneficially own or control (beneficial owner) the Client's account in lines with its internal policies and guidelines framed by competent authorities from time to time in this regard. The beneficial owner shall be the natural person or persons who ultimately own, control or influence a client and / or persons on whose behalf a transaction is being conducted, and includes a person who exercises ultimate effective control over a legal person or arrangement.

The Portfolio Manager may share clients' personal information with any organization compliance with any legal or regulatory requirements or to verify the identity of Clients for complying with anti-money laundering requirements.

Clients are requested to note that KYC is mandatory for all investors. SEBI vide circular no. MIRSD/SE/Cir-21/2011 dated October 5, 2011 and CIR/MIRSD/ 11 /2012 dated September 5, 2012 has mandated that the uniform KYC form and supporting documents shall be used by all SEBI registered intermediaries in respect of all new clients from January 1, 2012. Further, SEBI vide circular no. MIRSD/Cir-23/2011 dated December 2, 2011, has developed a mechanism for centralization of the KYC records in the securities market to bring about uniformity in securities markets. Accordingly, KYC registration is being centralised through KYC Registration Agencies (KRA) registered with SEBI. Thus, each Client has to undergo a uniform KYC process only once in the securities market and the details would be shared with other intermediaries by the KRA. Applications shall be liable to be rejected if the clients do not comply with the aforesaid KYC requirements.
